

August 29, 2020

We at the Hawaii Department of Transportation – Office of Civil Rights (HDOT OCR) would like to bring awareness to an expected upcoming opportunity for interested educational institutions regarding the National Summer Transportation Institute (NSTI) program provided by the Federal Highways Administration (FHWA) for Federal Fiscal Year 2021. NSTI seeks to promote educational opportunities for interested middle and high school students wanting to pursue fields of study related to transportation and, eventually, careers in the transportation field. NSTI is a yearly program, grant-funded by FHWA, that will allow a qualifying educational institution to create, fund, and manage a summertime program supporting greater learning and hands-on experience in the transportation field.

If your organization is interested in participating in the NSTI program with HDOT, please contact the NSTI lead, Randall Landry, via email at [randall.t.landry@hawaii.gov](mailto:randall.t.landry@hawaii.gov) or by phone at 808-831-7921. If contacted by the appropriate personnel from your institution, additional information will be provided as it is released by FHWA related to this expected opportunity. Please note that there is a very short window for applying for said funding for Federal Fiscal Year 2021, so please reach out as soon as possible if interested in pursuing said opportunity.
